Professional Summary

Aspiring Cybersecurity Engineer with a strong interest in Penetration Testing, Vulnerability Assessment, Web Security, and Ethical Hacking. Hands-on practice with cybersecurity tools such as Kali Linux, Nmap, Wireshark, Splunk, Metasploit, Burp Suite, Hydra, Gobuster, Hashcat, and John the Ripper. Career goal is to become a Web Application Security Specialist focused on testing websites and web applications and improving application security.

Technical Skills

Security & Pentesting	Kali Linux, Nmap, Metasploit, Burp Suite, Hydra, Gobuster
Network & Logs	Wireshark, Splunk, HTTP/DNS log analysis, service detection
Password Tools	Hashcat, John the Ripper
Programming	Java, C, C++
Web & Database	HTML, CSS, Spring Boot, MySQL, Supabase
Core CS / Platforms	DBMS, OS, CN, Data Structures, OOPS, GitHub, TryHackMe, Linux, Windows

Projects

College Event Management System - Java, MySQL

- Built login and registration flow for users.
- Implemented admin event management and participant event registration.
- Applied database-based user and event data handling with a role-based access flow.

Bank Management System using OOPS - C++

- Developed a menu-driven banking system using Object-Oriented Programming concepts.
- Implemented account creation, deposit, withdrawal, and balance checking features.

Cybersecurity Practice

- Practicing beginner-level cybersecurity rooms and CTF challenges on TryHackMe.
- Performed network scanning, port scanning, and service detection using Nmap.
- Practiced log analysis and security correlation using Splunk with HTTP/DNS logs.
- Practiced web application request and response analysis using Burp Suite.
- Practiced hash cracking using Hashcat and John the Ripper.

Achievements & Profiles

- TryHackMe Rank: 32754 | Global Ranking: Top 2% | Badges: 11.
- Solved 71 problems on LeetCode and maintained 5 GitHub repositories.
- Participated in technical events at REC and IIITDM, Chennai.

Education

B.E. Computer Science and Engineering - National Engineering College | 2024 - 2028

- Current Year: 2nd Year | Department: CSE | CGPA: 7.55

Yogaraj S

Certifications, CTF Participation & Additional Details

Certifications

- NPTEL - Technical English for Engineers, IIT Madras / Swayam, Aug-Oct 2024, Score: 60%.
- NPTEL - Ethical Hacking, IIT Kharagpur / Swayam, Jul-Oct 2025, Score: 54%.
- NPTEL - Introduction to Internet of Things, IIT Kharagpur / Swayam, Jul-Oct 2025, Score: 67%.
- Udemy - Mobile Application Pentesting & Bug Bounty Hunting in 2025.
- TryHackMe - Pre Security.
- Cisco Networking Basics and currently learning CCNA through Cisco Networking Academy.
- Oracle Academy - Database Design - English.
- IIT Bombay Spoken Tutorial - Linux Training, C++ Training, and Advanced C++ Training.

CTF & Cybersecurity Participation

- ACNCTF - Amrita Cyber Nation 4th Edition.
- H7CTF 2025 International Cybersecurity Competition.
- IIITDM Kancheepuram software security / vulnerability assessment bootcamps and 4th place achievement among 47 participants.
- OxTI-HackTiVate 24-hour CTF at Rajalakshmi Engineering College.
- ISEA ISAP CTF 2026 at IIT Madras.
- Virtual CTF of SPARC at BMSITM.
- MythX National Level Cybersecurity CTF Challenge with Team Hex\$loit.
- CREST CTF 2026, KJSSE CTF 3.0, and ZYVERSE 2K25.

Training & Practice

- Currently learning CCNA through Cisco Networking Academy.
- Practicing TryHackMe CTF challenges and cybersecurity labs.

Soft Skills & Languages

- Soft Skills: Problem Solving, Teamwork, Time Management, Self Learning.
- Languages Known: Tamil and English.

Other Achievements

- Drawing Competition - First Prize.
- Waste to Wealth Event - Second Prize at National Engineering College / NSS.
